Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), providing page description digital data defining a version of at least one image; rasterizing the PDL data into instruction or RIP data defining a digital bitmap comprised of an array of Marked Pixels assigned a digital value representing marking information and Unmarked Pixels not assigned a value representing marking information; rendering RIP data retrieved from memory into rendered, and providing the rendered data to a writer interface for printing, wherein the rendering step comprises defining Marked Pixels as either interior pixels or edge pixels and reassigning the digital value of the interior pixels and edge pixel values independently to minimize print sensitivity to differing line screen frequencies between images as claimed in claim 28. Similar features are claimed in claim 34. Therefore, claim 34 is allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
